SUBJECT INDEX, VOLUME 3, 1974

AC 92,100, effect on microbial activities by, 528
Adelges cooleyi, 501
Adoxophyes orana, sex pheromones of, 701
Aedes aegypti, juvenile hormone mimic against, 259
Aedes atropalpus, diapause and fecundity in, 139
Aggregation indices, of cotton arthropods, 598
Alate offspring, of greenbug, 407
Alate production, in red fire ant, 265
Albizzia psyllid, development of, 1013
Alfalfa, population studies of spiders in, 989
Alfalfa leafcutting bee, insecticide susceptibility of, 691
  carbaryl toxicity in, 899
Alfalfa weevil, 891
Alfalfa weevil, eggs of, 353
  Bathyplectes curculionis effects on, 396, 705
  larval instar selection by parasite damage to, 549
  dispersal of parasitoid of, 575
  population dynamics of, 593
  bionomics of egg predator of, 789
  spatial distribution patterns of, 866
  sampling plan for, 872
  Bathyplectes curculionis egg encapsulation in, 881
  diel activity cycle of, 939
  parasite-prey ratios among larvae of, 1031
Algae, insecticide damage to, 217
Alkali bees, parathion toxicity in, 455
Almond moth, sex pheromone inhibitor of, 120
  sexual response inhibition in, 277
Alternaria solani, fungicides against, 560
Amphorophora agathonica, on red raspberry cultivars, 773
Angoumois grain moth, as host for *Trichogramma*, 545
  rice varieties resistant to, 681
Anthonomus grandis, grandlure against, 135
  sex ratios and diapause of, 386
Ants, effects of Mirex on, 895
Aphicide, pirimicarb, 99
Aphid cornicle secretions ineffective against wasps, 565
Aphid-resistant red raspberry cultivars, 773
Aphids, phorate against, 642
Apis mellifera, greenhouse pollination by, 664
  oxytetracycline residues in honey of, 674
  effect of herbicided water on, 808
Apple insect species, population estimates of, 508
Apple maggots, Tachinidae in traps for, 572
  response to apples by, 733
Apples, response of apple maggot to, 733
Aquatic organisms, effects of insect developmental inhibitors on, 631
Archips argyrospilus, sex pheromones of, 747
Archips semiferanus, pupal parasites of, 329
Argyrotaenia velutinana, control of, 239
Arthropods, predaceous: seasonal abundance in soybeans of, 985
Arthropods, terrestrial: lead in, 370
Ataenius spretulus, milky disease bacterium of, 177
Attack patterns, of *Trichogramma pretiosum*, 647
Australian mealybug lady beetle, history and control of, 553
Autophagostimulant, from *Culex pipiens* larvae, 21

Bactra verutana, artificial diet for, 196
Bagworm, factors affecting population size of, 929
Bait dispenser, for controlled emission of attractants from insect traps, 926
Bark beetles, population dynamics of, 579
  defoliation as agent to outbreak of, 722
Bathyplectes curculionis, effects on alfalfa weevil by, 396
  alfalfa weevil selection from damage of, 549
  effects on alfalfa weevil growth by, 705
  egg encapsulation of, 881
  hyperparasites of, 953
Bean leaf beetle, distribution patterns of, 607
Beet armyworm moth, thermal tolerance of, 290
Behavior changes induced in melon fly, 571
Biological concentration, evidence for, 370
Biological control, in the tropics, 1
  of thistles, 429, 464
  of dark rice field mosquito, 823
Biology, of *Colladonus mendicus*, 511
Bionomics, of carrot beetle, 969
Biosynthesis, of methylcyclohexenone by Douglas-fir beetle, 886
Bisexual cooperation, in *Phanaeus* spp., 341
Black-fly, activity of, 351
  effect of water conditions on, 879
Blacklight, mass trapping with, 389
Boll weevil, grandlure against, 135
  seasonal sex ratios and diapause of, 386
Bollworm, egg parasitization of, 319
  nondiapause strain of, 525
  model to predict population buildup of, 978
  field application of eggs of, 981
Bothynus (=*Ligyrus*) *gibbosus*, bionomics of, 969
Bovine coprocoenosis, effects of ULV organophosphates on, 919
Bracon hebetor, interactions of, 183
Braconid parasitoid, effects on insecticides on, 737
Branched fatty acids, against mosquito larvae, 487
Bux insecticides, in model ecosystem, 975

Cabbage, determination of active NPV content on, 908
Cabbage looper, trap for, 49
  egg irradiation, 309
  egg parasitization of, 319
  Voria ruralis against, 439
  Z-7-dodecen-1-ol and sex pheromone response of, 677
  sex pheromone communication in, 876
  effectiveness of *Trichogramma* spp. against, 935
  temperature effects on parasite of, 957
  model to predict population buildup of, 978
Cabbage maggot, dispersal of, 563
Cadra cautella, sex pheromone inhibitor of, 120
  sexual response inhibition in, 277
Calling behavior of female *Plodia interpunctella*, 793
Campoletis sonorensis, cocoon spinning of, 714
Carbaryl toxicity, in *Megachile pacifica*, 899
Carrot beetle, bionomics of, 969
Castes, in *Solenopsis invicta*, 656
Cereal aphids, spring movement of, 347
Cereal leaf beetle, parasitoid of, 453

SUBJECT INDEX, VOLUME 3, 1974

AC 92,100, effect on microbial activities by, 528
Adelges cooleyi, 501
Adoxophyes orana, sex pheromones of, 701
Aedes aegypti, juvenile hormone mimic against, 259
Aedes atropalpus, diapause and fecundity in, 139
Aggregation indices, of cotton arthropods, 598
Alate offspring, of greenbug, 407
Alate production, in red fire ant, 265
Albizzia psyllid, development of, 1013
Alfalfa, population studies of spiders in, 989
Alfalfa leafcutting bee, insecticide susceptibility of, 691
  carbaryl toxicity in, 899
Alfalfa weevil, 891
Alfalfa weevil, eggs of, 353
  Bathyplectes curculionis effects on, 396, 705
  larval instar selection by parasite damage to, 549
  dispersal of parasitoid of, 575
  population dynamics of, 593
  bionomics of egg predator of, 789
  spatial distribution patterns of, 866
  sampling plan for, 872
  Bathyplectes curculionis egg encapsulation in, 881
  diel activity cycle of, 939
  parasite-prey ratios among larvae of, 1031
Algae, insecticide damage to, 217
Alkali bees, parathion toxicity in, 455
Almond moth, sex pheromone inhibitor of, 120
  sexual response inhibition in, 277
Alternaria solani, fungicides against, 560
Amphorophora agathonica, on red raspberry cultivars, 773
Angoumois grain moth, as host for *Trichogramma*, 545
  rice varieties resistant to, 681
Anthonomus grandis, grandlure against, 135
  sex ratios and diapause of, 386
Ants, effects of Mirex on, 895
Aphicide, pirimicarb, 99
Aphid cornicle secretions ineffective against wasps, 565
Aphid-resistant red raspberry cultivars, 773
Aphids, phorate against, 642
Apis mellifera, greenhouse pollination by, 664
  oxytetracycline residues in honey of, 674
  effect of herbicided water on, 808
Apple insect species, population estimates of, 508
Apple maggots, Tachinidae in traps for, 572
  response to apples by, 733
Apples, response of apple maggot to, 733
Aquatic organisms, effects of insect developmental inhibitors on, 631
Archips argyrospilus, sex pheromones of, 747
Archips semiferanus, pupal parasites of, 329
Argyrotaenia velutinana, control of, 239
Arthropods, predaceous: seasonal abundance in soybeans of, 985
Arthropods, terrestrial: lead in, 370
Ataenius spretulus, milky disease bacterium of, 177
Attack patterns, of *Trichogramma pretiosum*, 647
Australian mealybug lady beetle, history and control of, 553
Autophagostimulant, from *Culex pipiens* larvae, 21

Bactra verutana, artificial diet for, 196
Bagworm, factors affecting population size of, 929
Bait dispenser, for controlled emission of attractants from insect traps, 926
Bark beetles, population dynamics of, 579
  defoliation as agent to outbreak of, 722
Bathyplectes curculionis, effects on alfalfa weevil by, 396
  alfalfa weevil selection from damage of, 549
  effects on alfalfa weevil growth by, 705
  egg encapsulation of, 881
  hyperparasites of, 953
Bean leaf beetle, distribution patterns of, 607
Beet armyworm moth, thermal tolerance of, 290
Behavior changes induced in melon fly, 571
Biological concentration, evidence for, 370
Biological control, in the tropics, 1
  of thistles, 429, 464
  of dark rice field mosquito, 823
Biology, of *Colladonus mendicus*, 511
Bionomics, of carrot beetle, 969
Biosynthesis, of methylcyclohexenone by Douglas-fir beetle, 886
Bisexual cooperation, in *Phanaeus* spp., 341
Black-fly, activity of, 351
  effect of water conditions on, 879
Blacklight, mass trapping with, 389
Boll weevil, grandlure against, 135
  seasonal sex ratios and diapause of, 386
Bollworm, egg parasitization of, 319
  nondiapause strain of, 525
  model to predict population buildup of, 978
  field application of eggs of, 981
Bothynus (=*Ligyrus*) *gibbosus*, bionomics of, 969
Bovine coprocoenosis, effects of ULV organophosphates on, 919
Bracon hebetor, interactions of, 183
Braconid parasitoid, effects on insecticides on, 737
Branched fatty acids, against mosquito larvae, 487
Bux insecticides, in model ecosystem, 975

Cabbage, determination of active NPV content on, 908
Cabbage looper, trap for, 49
  egg irradiation, 309
  egg parasitization of, 319
  Voria ruralis against, 439
  Z-7-dodecen-1-ol and sex pheromone response of, 677
  sex pheromone communication in, 876
  effectiveness of *Trichogramma* spp. against, 935
  temperature effects on parasite of, 957
  model to predict population buildup of, 978
Cabbage maggot, dispersal of, 563
Cadra cautella, sex pheromone inhibitor of, 120
  sexual response inhibition in, 277
Calling behavior of female *Plodia interpunctella*, 793
Campoletis sonorensis, cocoon spinning of, 714
Carbaryl toxicity, in *Megachile pacifica*, 899
Carrot beetle, bionomics of, 969
Castes, in *Solenopsis invicta*, 656
Cereal aphids, spring movement of, 347
Cereal leaf beetle, parasitoid of, 453

Cerotoma trifurcata, distribution patterns of, 607
Chauliognathus pennsylvanicus, unbalanced sex ratios in, 572
Chelonus inanitus, effects of insecticides on, 737
Chemosterilization, by fumigation, 172
Chlorcyclizine, effects on parathion toxicity by, 455
Chrysopa rufilabris, susceptibility to insecticides, 146
Chrysops atlanticus, larval-plant associations, 280
Chrysops fuliginosus, larval-plant associations, 280
Chrysoteuchia topiarai, emergence rhythm in, 380
Citrus rust mite, temperature and humidity effects on, 813
Cocoon spinning, of *Campoletis sonorensis*, 714
Codling moth, sterilization and dispersal of, 75
longevity and oviposition capacity of, 402
sexual attraction inhibitor of, 522
irradiation effects on mating capacity of, 645
population dynamics of, 686
trap efficiency for, 803
Co-evolution of interacting species, 1
Cold storage, of *Lysiphlebus testaceipes*, 557
Cold-tolerant biotypes, of *Cryptolaemus montrouzieri*, 553
Coleophora laricella, sex pheromone in, 360
Colladonus mendicus, biology of, 511
Color responses, of thrips, 295
Common corn smut, corn susceptibility to, 911
Conidiobolus coronatus, 1030
Control, potential of blacklight traps for control, 389
Cooley spruce gall aphid, population levels of, 501
Copidosoma truncatellum, effect of temperature on, 957
Coristoneura occidentalis, parasitoids of, 186
Corn leaf aphid, corn susceptibility to, 911
Corn rootworm, maize resistance to, 767
Corythucha ciliata, 59
Cotton, effect on pink bollworm by staple length of, 887
persistence of *Heliothis* nuclear polyhedrosis virus on, 1035
Cotton arthropods, aggregation indices of, 598
Cotton fleahopper, sampling plan for, 102
Crop prices, and use of insecticides, 10
Cryptolaemus montrouzieri, history and control of, 553
Culex peus, planaria against, 637
Culex pipiens, autophagostimulant from, 21
Culex pipiens quinquefasciatus, overcrowding of, 482, 487
Curculio caryae, infestation study of, 208

Dacus cucurbitae, behavior of, 571
Dacus oleae, sexual attraction in, 82
Dark rice field mosquito, biological control of, 823
DDT, interaction with NPV in *Galleria mellonella*, 567
Deer fly, larval-plant associations, 280
Defoliation, as agent to bark beetle outbreak, 722
Dendroctonus frontalis, pheromone against, 90
Hymenopterous parasites of, 131
loblolly pine growth and, 425
effect on parasite abundance in *Ips* spp. by, 695
Dendroctonus ponderosae, pheromones of, 90
Dendroctonus pseudotsugae, biosynthesis of methylcyclohexenone by, 886
Development of, hornfly, 151
Diabrotica longicornis, maize resistance to, 767
Diabrotica undecimpunctata howardi, maize resistance to, 767
Diabrotica virgifera, maize resistance to, 767
Diapause, in *Aedes atropalpus*, 139
in southwestern corn borer, 233
in pink bollworm, 316
in boll weevil, 386
effects of added light on, 863
pink bollworm termination of, 933
Diatraea grandiosella, diapause of, 233
Diel activity cycle, of alfalfa weevil, 939
Dietary preferences, of *Embaphion muricatum*, 247
Dispersal, of adult cabbage maggot, 563
Distribution patterns, of bean leaf beetle, 607
DOOM, microbiological assay of, 182
Douglas-fir beetle, biosynthesis of methylcyclohexenone by, 886
Dugesia dorotocephala, against *Culex peus*, 637
Dung beetle, methoprene against, 947

Earthworms, effects of soil insecticides on, 305
Economic land-use model, 10
Ecosystem, prairie, 358
Egg irradiation, of cabbage looper, 309
Egg parasitism, by *Trichogramma pretiosum*, 497
Egyptian alfalfa weevil, fall migration of, 373
effects of light and temperature on development in, 1017
Electromagnetic fields, effect on soil arthropods by, 845
Elm spanworm, *Ooencyrtus* sp. against, 659
Embaphion muricatum, dietary preferences of, 247
Emergence, manipulation of: in *Trichogramma pretiosum*, 505
Emergence patterns, of *Chrysoteuchia topiaria*, 380
of *Synanthedon pictipes*, 1008
Empoa platana, 59
Empoasca fabae, 59
Ennomos subsignarius, *Ooencyrtus* sp. against, 659
Entomopathogenic fungi, sensitivity to fungicides and insecticides, 33
Entomophthora, comparative pesticide effects on, 560
diel periodicity of, 888
Entomophthora virulenta, 1030
Environment, effects of western harvester ants on, 994
Ephedrus plagiator, biology of, 618
Epilachna varivestis, soybean resistance to, 785
Equilibrium population model, 211
Erythroneura lawsoni, biology of, 59
Euplectrus platyhypenae, life cycle of, 744
European corn borer, synthetic lure for, 51
maize resistance to, 718
Nosema pyraustae in populations of, 878

Face fly, predator of, 356
effects of ULV organophosphates on, 919
Fall armyworm, disruption of pheromone communication of, 778
Fecundity, in *Aedes atropalpus*, 139
in *Trichogramma*, 169
in *Stethorus picipes*, 123
in grain beetles and mites, 243
in *Trichogramma pretiosum* 558
in insecticide-treated *Geocoris* spp., 1036
Fertilization, effect on *Adelges cooleyi* populations by, 501
Fire ant, juvenile hormone on, 112
tolerance to ozone by, 184
Fish, as biological control of dark rice field mosquito, 823
Flight activity, of apple insect species, 508
of female horse flies, 515
of female spined stilt bugs, 653
of oriental fruit moth, 1003
of *Ooencyrtus* sp., 1028
Flight range, of *Simulium slossonae*, 365

Food links, arthropod-plant, 1
Food transportation, in *Phanaeus* spp., 341
Fruittree leafroller moth, sex pheromones of, 747
Fungi, entomopathogenic, 33
Fungicides, sensitivity of entomopathogenic fungi to, 33
comparative effects of, 560
Fungus, of green peach aphid, 346
Fungus-gardening ants, mound building in, 667

Galleria mellonella, as host for *Trichogramma*, 545
NPV in, 567
General productivity model, for bark beetles, 579
Geocoris spp., sequential sampling plan for, 415
effects of insecticides on, 1038
Glischrochilus quadrisignatus, temperature and development of, 1032
Grain-eating beetles, bacterial diet for, 243
Granary arthropods, seasonal abundance of, 854
Grandlure, component ratios and doses, 135
Grape berry moth, trap for, 192, 239
control of, 239
Grape quality, effects of *Tetranychus pacificus* on, 601
Grapholitha molesta, attractant mixtures for, 586
flight activity of, 1003
Grapholitha prunivora, attractant mixtures for, 586
Grasshoppers, in prairie ecosystem, 358
Greater wax moth, as host for *Trichogramma*, 545
Greenbugs, hymenopterous parasitoid of, 355
development of parasite of, 377
alate offspring of, 407
systemic insecticides against, 409
parasite of, 412
Lysiphlebus testaceipes and, 950
Green cloverworm, overwintering potential of, 272
Green lacewing, susceptibility to insecticides, 146
Green peach aphid, life system analysis, 221
fungus of, 346
tuber-bearing *Solanum* resistance to, 1022
Growth-retarding compounds, of mosquito larvae, 482
Gypsy moth, parasitoid habitat preference, 363
male mating potential of, 383
comparison of wild and tame, 475
mating suppression of, 589

Habitat preference, of gypsy moth parasite, 363
Habitat space, calculation method for, 313
Haematobia irritans, development of, 151
dispersal and host location, 107
sterilization and release, 159, 287
effects of ULV organophosphates on, 919
Heat, sound, and engine exhaust as "lovebug" attractants, 1038
Heliothis nuclear polyhedrosis virus, persistence of, 253
persistence on cotton plants by, 1035
Heloithis spp., population dynamics of, 163
parasitism of eggs of, 497
Heliothis virescens, collection and traps for, 711
Heliothis zea, egg parasitization of, 319
nondiapause strain of, 525
model to predict population buildup of, 978
field application of eggs of, 981
Herbicides, effect on honey bee by water treated with, 808
against corn leaf aphid, 911
against common corn smut, 911
Hessian fly, estimating populations of, 441
Hibernation, of *Lysiphlebus testaceipes*, 412
Honey, oxytetracycline residues in, 674
Honey bee, greenhouse pollination by, 664
oxytetracycline residues in honey of, 674
effect of herbicided water on, 808
Hornfly, development of, 151
dispersal and host location, 107
sterilization and release, 159, 287
effects of ULV organophosphates on, 919
Horse fly, larval-plant associations, 280
flight activity of, 515
House fly, predator of, 356
resistance to attacking parasite by, 621
Host location, of horn fly, 107
Humidity, effect on citrus rust mite by, 813
adult merchant grain beetles response to, 961
Hybridization, of *Trichogramma*, 43
Hylemya brassicae, dispersal of, 563
Hymenopterous parasites, of southern pine beetle, 131
associated with poultry manure, 884
against *Rhinocyllus conicus*, 1027
Hypera brunneipennis, 891
fall migration of, 373
effects of light and temperature on development of, 1017
Hypera postica, eggs of, 353
Bathyplectes curculionis effects on, 396
larval instar selection by parasite damage to, 549
dispersal of parasitoid of, 575
population dynamics of, 593
effects on alfalfa weevil growth by, 705
egg predator of, 789
spatial distribution patterns of, 866
sampling plan for, 872
Bathyplectes curculionis egg encapsulation in, 881
diel activity cycle of, 939
parasite-prey ratios among larvae of, 1031
Hyperparasites, of *Bathyplectes curculionis*, 953
Hypogastrura tullbergi, survival on fungal and bacterial diets by, 965

Imported cabbageworm, rubidium marking of, 327
Imported fire ant, seasonal activity of, 446
Indian meal moth, pheromone inhibitor released by, 120
sexual response inhibition in, 277
calling behavior of female, 793
factors affecting sex pheromones of, 797
age and determination of radiosensitivity of eggs of, 945
Infestation study, of pecan weevil, 208
Inopus rubriceps, biology, dispersion and natural enemies of, 29
Insect developmental inhibitors, effects on nontarget aquatic organisms by, 631
Insect growth regulators, 256
Insecticides, sensitivity of entomopathogenic fungi to, 33
susceptibility of *Chrysopa rufilabris* to, 146
reduction in use of, 10
in grains from treated seeds, 194
growth and photosynthesis inhibition by, 217
effects on earthworms by, 305
mite stimulation by, 534
Megachile pacifica susceptibility to, 691
effects on *Chelonus inanitus* by, 737
residues in human adipose tissues from, 882
effects on *Geocoris* spp. by, 1036
Insecticides, systemic: against greenbugs, 409
effect on soybean growth by, 574
Insect interactions, 492
Insects, seasonal abundance of, 854
Integrated control of *Heliothis* spp., 163

Interspecific competition and food sharing among ants, 755
Ips spp., effect of *Dendroctonus frontalis* on parasite abundance in, 695
Irradiation, effects on mating capacity of codling moths, 645
Irrigation, and insect interactions, 492
Italian thistles, biological control of, 464

Jalysus spinosus, reproductive diapause of, 156
flight activity of, 653
Juvenile hormone, effects on fire ant, 112
effects on spruce budworm parasitoids, 361
Juvenile hormone mimic, against mosquitoes, 259

Kairomones, field application of, 981

Laboratory diet, for *Bactra verutana*, 196
Larch casebearer, sex pheromone in, 360
Laspeyresia pomonella, sterilization and dispersal of, 75
longevity and oviposition capacity of, 402
sexual attraction inhibitor of, 522
irradiation effects on mating capacity of, 645
population dynamics of, 686
trap efficiency for, 803
Lead, in terrestrial arthropods, 370
Lemophagus curtus, establishment in USA of, 453
Lepidoptera, effects of added light on overwintering and diapause in, 863
sex pheromone communication in, 876
Lesser appleworm, attractant mixtures for, 586
Lesser grain borer, rice varieties resistant to, 681
Lesser peachtree borer, traps for, 73, 191, 431
sex pheromone of, 569
Life cycle, of *Euplectrus platyhypenae*, 744
Life system analysis, of green peach aphid, 221
Life table analysis for *Sinella curviseta*, 840
Light, effect on calling behavior of female *Plodia interpunctella* by, 793
effect on overwintering and diapause of Lepidoptera by, 863
Ligyrus gibbosus, bionomics of, 969
Lindane residues in grain crops, 194
Litter-dwelling arthropods, habitat space of, 313
Lodgepole terminal weevil, in interior lodgepole forests, 998
Longevity, of codling moth, 402
of *Trichogramma pretiosum*, 558
Lovebug, rhythmic activity of, 323
heat, sound, and engine exhaust as attractants for, 1038
Lygus bugs, oviposition of, 350
host preference tests of, 761
population trends of, 781
Lygus elisus, host preference tests of, 761
Lygus hesperus, oviposition of, 350
host preference tests of, 761
population trends of, 781
Lysiphabus testaceipes, against greenbugs, 355, 950
temperature and development of, 377
hibernation of, 412
cold storage of, 557
olfactory response to host and non-host by, 1034

Magicicada septendecim, ornamental shrub damage by, 725
Maize, resistance to *Ostrinia nubilalis* by, 718
resistance to *Diabrotica virgifera* by, 767
Manduca sexta, trap for, 49
simulation model for, 541
Marking techniques, 327
Mating potential, of male gypsy moth, 383
Mating suppression, of gypsy moths, 589
Mayetiola destructor, estimating populations of, 441
Megachile pacifica, insecticide susceptibility of, 691
carbaryl toxicity in, 899
Melon fly, behavior of, 571
Merchant grain beetle, humidity response to, 961
Meteorological factors, and horse fly flight, 515
Methomyl, use on cotton, 723
Mexican bean beetle, soybean resistance to, 785
Microbial activities, effect of AC 92,100 on, 528
Microbial insecticides, application and stability, 117
Microctonus aethiops, dispersal of, 575
Microfloral diet, survival of Collembola on, 965
Migration, of Egyptian alfalfa weevil, 373
Milky disease bacterium, of *Ataenius spretulus*, 177
Mirex, effects on ants by, 895
Mirex residues in human adipose tissue, 882
Mite repellent, from tomato, 128
Mites, on fungal and bacterial diets, 243
orchard management of, 333
seasonal abundance of, 854
Mite stimulation, by insecticide residues, 534
Model, to evaluate predator power, 625
to predict insect population buildup, 978
Model ecosystem, fate of Bux insecticide in, 975
Mosquito, larval factors, 21
Mosquito control, 259
planaria as, 637
Mosquito control agents, effects on nontarget aquatic organisms by, 631
Mound building, in fungus-gardening ants, 667
Mountain pine beetle, pheromones of, 90
Musca autumnalis, effects of ULV organophosphates on, 919
Musca domestica, predator of, 356
resistance to parasite attack by, 621
Myzus persicae, life system analysis, 221
tuber-bearing *Solanum* resistance to, 1022

Nabis spp., escape barrier for, 189
sequential sampling plan for, 415
Nasonia vitripennis, house fly resistance to, 621
Nauphoeta conerea, tolerance to ozone by, 184
Nomia melanderi, parathion toxicity in, 455
methods for transferring and establishing of, 739
Nondiapause strain, of bollworm, 525
Non-target invertebrates, insecticide effects on, 305
Nosema pyraustae, in European corn borer populations, 878
Nuclear polyhedrosis virus, persistence on foliage, 253
in *Galleria mellonella*, 567
on untreated cabbages, 908
Nutrition, of *Podisus acutissimus*, 187
of *Trichogramma*, 169
of pink bollworm, 316
Nutrition and fecundity, in *Aedes atropalpus*, 139
Nymphal development, of insecticide-treated *Geocoris* spp., 1036

Oak leaf roller, pupal parasites of, 329
Odor responses of *Peristenus pseudopallipes*, 69
Olfactory response to host and non-host by *Lysiphlebus testaceipes*, 1034
Olive fruit fly, sexual attraction in, 82
Onthophagus gazella, methoprene against, 947
Ooencyrtus sp., against elm spanworm, 659
flight and ovipositional activity of, 1028

Orchard management of mites, 333
Ornamental shrubery damage, by periodical cicada, 725
Oriental fruit moth, attractant mixtures for, 586
flight activity of, 1003
Oryzaephilus mercator, humidity response of, 961
Ostrinia nubilalis, synthetic lure for, 51
maize resistance to, 718
Nosema pyraustae in populations of, 878
Oulema melanopus, parasitoid of, 453
Ovarian development of *Peristenus pseudopallipes*, 69
Overcrowding, of mosquito larvae, 482, 487
Overwintering, effects of added light on, 863
Overwintering potential of green cloverworm, 272
Oviposition, of *Trichogramma* into artificial substrates, 399
of codling moth, 402
of twospotted spider mite, 697
of *Ooencyrtus* sp., 1028
Oxytetracycline, residues found in honey, 674
Ozone, insects exposed to, 184

Pacific mite, effects on grape quality by, 601
Paralobesia viteana, trap for, 192, 239
control of, 239
Parasite-prey ratios among alfalfa weevil larvae, 1031
Pardosa ramulosa, escape barrier for, 189
population studies of, 989
Parasetigena agilis, habitat preference of, 363
Parasitoid wasps, aphid cornicle secretions ineffective against, 565
Parathion, against *Phytomyza syngenesiae*, 576
Pear psylla, growth regulators against, 256
Pecan weevil, infestation study of, 208
Pectinophora gossypiella, disruption of pheromone communication in, 87
chemosterilization of, 172
diet influence on diapause in, 316
effect of cotton staple length on, 887
geographical variation of diapause termination of, 933
Peridesmia discus, bionomic studies of, 789
Periodical cicada, ornamental shrub damage by, 725
Periplaneta americana, tolerance to ozone by, 184
Peristenus pseudopallipes, olfactory responses of, 69
ovarian development of, 69
Phanaeus spp., food transportation in, 341
bisexual cooperation in, 341
Pheromone, antiaggregative-rivalry, 90
of *Plodia interpunctella*, 120
Pheromone communication, disruption of, 87, 778
of *Synanthedon pictipes*, 923
Pheromone release, in wild and tame gypsy moths, 475
bait dispenser for control of, 926
Philonthus theveneti, life history, 356
against flies, 356
Phorate, against mites and aphids, 642
Photoperiod, fecundity and, 123
effect on Egyptian alfalfa weevil by, 1017
Photosynthesis, chemical inhibition of, 217
Phthorimaea operculella, parasitization of, 262
Phycitid moths, sexual response inhibition in, 277
Phycomycetes infecting root maggots, 1030
Phyllocoptruta oleivora, temperature and humidity effects on, 813
Phytomyza syngenesiae, parathion against, 576
Phytophagous insects, of Italian thistle, 464
of ragweed, 827, 835
Picnic beetle, temperature and development of, 1032
Pieris rapae, rubidium marking of, 327
effectiveness of *Trichogramma* spp. against, 935
Pink bollworm, chemosterilization of, 172
diet influence on diapause in, 316
effect of cotton staple length on, 887
geographical variation of diapause termination of, 933
Pirimicarb, nontoxicity of, 99
Pissodes terminalis, in interior lodgepole forests, 998
Pityophthorus confertus, development of, 562
Plagiognathus albatus, 59
Planaria, against *Culex peus*, 637
Plant-arthropod food links, 1
Plant feeding by a predaceous insect, 187
Planting pattern, and insect interactions, 492
Plant population, and insect interactions, 492
Plathypena scabra, overwintering potential of, 272
Platynota idaeusalis, sex pheromones of, 249
Plecia nearctica, rhythmic activity of, 323
heat, sound, and engine exhaust as attractants for, 1038
Plodia interpunctella, pheromone of, 120
interactions of, 183
sexual response inhibition in, 277
calling behavior of female, 793
factors affecting sex pheromones of, 797
age and determination of radiosensitivity of eggs of, 945
Podisus acutissimus, feeding habits of, 187
Pogonomyrmex occidentalis, foraging of, 420
effect on environment by, 994
Pollination, in greenhouses by bees, 664
Population dynamics, of *Heliothis* spp., 163
Population dynamics, 199
of bark beetles, 579
of alfalfa weevil, 593
of codling moth, 686
Population estimating, of Hessian fly, 441
of apple insect species, 508
Population management, 199
Population size, of bagworm, 929
Population studies of spiders in alfalfa, 989
Population trends, of *Lygus* spp., 781
Porthetria dispar, male mating potential of, 383
comparison of wild and tame, 475
mating suppression of, 589
Potato tuberworm, parasitization of, 262
Potential pesticide abuse, 891
Poultry manure, Hymenopterous parasitoids of, 884
Predator power and efficacy, 625
Primary parasites, of western spruce budworm, 186
Proisotoma minuta, survival on fungal and bacterial diets by, 965
Pseudatomoscelis seriatus, sampling plan for, 102
Pseudoplusia includens, Z-7-dodecen-1-ol against, 677
diel periodicity of *Entomophthora gammae* in, 888
Psorophora confinis, biological control of, 823
Psylla pyricola, growth regulators against, 256
Psylla uncatoides, development of, 1013

Radiation, effects on beet armyworm by, 290
Radiosensitivity of eggs of *Plodia interpunctella*, 945
Rearing techniques, for *Bactra verutana*, 196
Redbanded leafroller, control of, 239
Red imported fire ant, tolerance to ozone by, 184
effect of juvenile hormone on, 112
alate production and flight, 265
castes in, 656
settlement patterns of, 755
Reproductive diapause, in spined stilt bug, 156
Residual insecticidal activity of microbial insecticides, 117
Rhagoletis pomonella, Tachinidae in traps for, 572
response to apples by, 733

Rhinocyllus conicus, spring releases of, 429
native Hymenopteran parasitoids against, 1027
Rhopalosiphum maidis, corn susceptibility to, 911
Rhyzopertha dominica, rice varieties resistant to, 681
Rice weevil, rice varieties resistant to, 681
Rubidium marking, of imported cabbageworm, 327

Sampling methods, comparison of, 227
Sampling plan, for alfalfa weevil, 872
Schizaphis graminum, parasite of, 355
alate offspring of, 407
systemic insecticides against, 409
parasite of, 412
'Gaucho' resistance to, 720
Lysiphlebus testaceipes and, 950
Seasonal abundance, of insects and mites in granaries, 854
of predaceous arthropods in soybeans, 985
Seasonal activity, of imported fire ant, 446
Secondary parasites, of western spruce budworm, 186
Selective toxicity of pirimicarb, 99
Sequential sampling plan, 102
for *Nabis* spp., 415
for *Geocoris* spp., 415
Settlement patterns of red imported fire ant, 755
Sexing, of *Stethorus picipes*, 123
Sex pheromones, of Lepidoptera, 87, 876
of tufted apple bud moth, 249
of larch casebearer, 360
of lesser peachtree borer, 569
of *Adoxophyes orana*, 701
of fruittree leafroller moth, 747
of *Plodia interpunctella*, 797
of *Sinella curviseta*, 916
Sex ratios, of boll weevil, 386
unbalanced in *Chauliognathus pennsylvanicus*, 572
Sexual attraction inhibitor, of male codling moth, 522
Sexual behavior, of wild and tame gypsy moths, 475
Simulation model, for tobacco hornworms, 541
Simuliids, activity of, 351
Simulium slossonae, flight range of, 365
Simulium vittatum, effect of water conditions on, 879
Sinella curviseta, life table analysis for, 840
sex pheromone in, 916
Sitophilus oryzae, rice varieties resistant to, 681
Sitotroga cerealella, as host for *Trichogramma*, 545
rice varieties resistant to, 681
SKF 525A, effects on parathion toxicity by, 455
Soil arthropods, effect of electromagnetic fields on, 845
Soils, effect of microbial activities on, 528
Soldier fly, biology, dispersion and natural enemies, 29
Solenopsis invicta, tolerance to ozone by, 184
juvenile hormone on, 112
alate production and flight, 265
castes in, 656
settlement patterns of, 755
Solenopsis saevissima richteri, seasonal activity of, 446
Solenopsis xyloni, settlement patterns of, 755
Southern meadowlark, beneficial aspects of, 39
Southern pine beetle, pheromone against, 90
Hymenopterous parasites of, 131
loblolly pine growth and, 425
effect on parasite abundance in *Ips* spp. by, 695
Southwestern corn borer, diapause of, 233
Soybean arthropods, sampling methods for, 227
seasonal abundance of predaceous members of, 985
Soybean foliage, microbial insecticides of, 117
Soybean looper, Z-7-dodecen-1-ol against, 677
diel periodicity of *Entomophthora gammae* in, 888
Soybean resistance, to Mexican bean beetle, 785
Soybeans, growth after insecticide use on, 574
Spatial distribution patterns, of *Hypera postica*, 866
Spider populations in alfalfa, 989
Spined stilt bug, reproductive diapause in, 156
flight activity of, 653
Spodoptera exigua, thermal tolerance of, 290
Spodoptera frugiperda, disruption of pheromone communication of, 778
Spores, of milky disease bacterium, 177
Spruce beetle, winter mortality of, 752
Spruce budworm, parasites of, 361
Stable fly, predator of, 356
Sterile-male technique, against horn fly, 287
threshold requirement for, 211
Sterilization and release, of horn fly, 159
of codling moth, 75
Stethorus picipes, oviposition factors of, 123
Stock, uniparental and biparental, 43
Stomoxys calcitrans, predator of, 356
Storage, of *Trichogramma pretiosum* pupae, 505
Suction sampling, improved, 189
Summerfruit tortrix moth, sex pheromones of, 701
Synanthedon pictipes, trap for, 73, 191, 431
sex pheromone of, 569
pheromone communication by, 923
emergence patterns of, 1008
Synthetic lure, for European corn borer, 51
Systems simulation procedures, 199

Tabanidae, larval-plant associations, 280
Tabanus spp., flight activity of, 515
Tabanus nigrovittatus, larval-plant associations, 280
Tachinid flies, captured in apple maggot traps, 572
Temperature, effect on southwestern corn borer, 233
effect on alfalfa weevil eggs, 35
effect on development of *Lysiphlebus testaceipes* by, 377
effect on emergence rhythm in *Chrysoteuchia topiaria*, 380
effect on *Ephedrus plagiator* by, 618
effect on winter mortality of spruce beetle by, 752
effect on citrus rust mite by, 813
effect on Egyptian alfalfa weevil by, 1017
effect on picnic beetle by, 1032
Tephritid fruit flies, sexual attraction in, 82
Tetranychus, repellent for, 128
Tetranychus pacificus, effects on grape quality by, 601
Tetranychus urticae, insecticide residue stimulation of, 534
effect of phorate on, 642
site preference and oviposition of, 697
Thermal tolerance, of beet armyworm moth, 290
Threshold requirement, for sterile-male release, 211
Thrips, color responses of, 295
Thyridopteryx ephemeraeformis, factors affecting population size of, 929
Thysanoptera, color responses of, 295
Tobacco budworm, collection and traps for, 711
Tobacco hornworm, trap for, 49
simulation model for, 541
Tomato, mite repellent from, 128
Trachymyrmex septentrionalis, mound building in, 667
Transferring and establishing methods for alkali bee, 739
Trap, for lesser peachtree borer, 73, 191
for codling moth, 75
for soldier fly, 29
for tobacco hornworm and cabbage looper, 49
for grape berry moth, 192, 239

for redbanded leafroller, 239
with black light, 389
against lesser peach tree borer, 431
for apple insect species, 508
for codling moth, 522
for apple maggot, 572
for tobacco budworm, 711
competitive effect of codling moths on efficiency of, 803
dispenser for emission control of pheromones from, 926
Treated seed, lindane residues in grains from, 194
Trichogramma, hybridization, 43
fecundity and nutrition in, 169
parasitization by, 319
egg parasitizing effectiveness of, 935
Trichogramma californicum, oviposition in artificial substrates by, 399
Trichogramma evanescens, kairomone application and, 981
Trichogramma pretiosum, parasitism of *Heliothis* eggs by, 497
emergence manipulation of, 505
mass-rearing on greater wax moth eggs, 545
rearing methods for, 558
attack patterns of, 647
Trichoplusia ni, disruption of pheromone communication in, 87
trap for, 49
egg irradiation, 309
egg parasitization of, 319
Voria ruralis against, 439
Z-7-dodecen-1-ol and sex pheromone response of, 677
sex pheromone communication in, 876
effectiveness of *Trichogramma* spp. against, 935
temperature effects on parasite of, 957
model to predict population buildup of, 978
Triticale, *Schizaphis graminum* resistance by variety of, 720
Tufted apple bud moth, sex pheromones of, 249
Twospotted spider mite, effect of phorate on, 642
site preference and oviposition of, 697

ULV organophosphates, affects on horn fly and face fly by, 919
Ustilago maydis, corn susceptibility to, 911

Virus persistence on foliage, 253
Visual economic thresholds, 891
Voria ruralis, against *Trichoplusia ni*, 439

Water conditions, effect on black-fly by, 879
Western harvester ant, foraging of, 420
effect on environment by, 994
Western spruce budworm, parasitoids of, 186
Winter mortality, of spruce beetle, 752

Xylocoris flavipes, interactions of, 183

Z-7-dodecen-1-ol, against cabbage looper, 677
ZETA, against *Cadra cautella*, 120

EDITORIAL BOARD

W. HAZELTINE, *Chairman,* Oroville, Calif. (E, 1974)

S. C. HOYT, Wenatchee, Wash. (F, 1975) P. B. KANNOWSKI, Grand Forks, N. Dak. (C, 1977)

R. W. MATTHEWS, Athens, Ga. (A, 1976) H. D. NEWSON, East Lansing, Mich. (D, 1978)

C. F. WILKINSON, Ithaca, N. Y. (B, 1979)

A bimonthly journal devoted to research on the behavior of insects and their interaction with the biological, chemical, and physical constituents of their environment. Authors are entirely responsible for statements in ENVIRONMENTAL ENTOMOLOGY, whether of fact or opinion.

SUBSCRIPTIONS. Nonmembers in North America and U. S. Possessions—$30.00 per year; elsewhere—$32.00. Single copies—$6.00. Members in North America and U. S. Possessions—$15.00 per year; elsewhere—$16.00. Membership dues: Active $15.00; student $3.00. Deliveries overseas are not guaranteed and foreign mailings are made at the subscriber's risk. Subscribers will be charged a service fee of $1.00 for forwarding journals returned to the ESA because of failure of the subscriber to provide a timely change of address.

MISSING NUMBERS cannot be supplied free of charge in North America and U. S. Possessions unless notice is received within 60 days after the appearance of issues concerned. The Executive Secretary will be glad to quote prices for back numbers.

REPRINTS. A reprint price schedule that applies to orders received before ENVIRONMENTAL ENTOMOLOGY goes to press is shown on the order blank sent with galley proof. No reprints are furnished gratis. (For price schedule see BULLETIN OF THE ENTOMOLOGICAL SOCIETY OF AMERICA 20(4): December 1974.)

BUSINESS COMMUNICATIONS and matters pertaining to subscriptions and advertisements should be sent to the Executive Secretary. Changes of address must be received 5 days prior to the month of issue to be effective for that month.

MANUSCRIPTS and other copy should be sent to the Executive Secretary. Authors are urged to consult "Publication Policies and Instructions for Contributors" before submitting manuscripts (BULLETIN OF THE ENTOMOLOGICAL SOCIETY OF AMERICA 19(2): 85, June 1973). Reproduction of abstracts is authorized. Page charges are $46.00 per page, partial pages proportionately.

ENTOMOLOGICAL SOCIETY OF AMERICA

OFFICERS—1974

President—P. L. Adkisson, College Station, Texas
President-elect—K. L. Knight, Raleigh, North Carolina
Executive Secretary—W. P. Murdoch, College Park, Maryland

GOVERNING BOARD

P. L. Adkisson, College Station, Texas (1975)

K. L. Knight, Raleigh, North Carolina
(President-elect, 1976)

T. A. Brindley, Ankeny, Iowa
(North Central, 1975)

R. O. Drummond, Kerrville, Texas
(Southwestern, 1976)

G. B. Craig, Jr., Notre Dame, Indiana
(D, 1974)

G. E. Guyer
(Past President, 1974)

G. P. Georghiou, Riverside, California
(B, 1975)

R. H. Harwood, Pullman, Washington
(Pacific, 1974)

P. D. Hurd, Washington, D. C.
(A, 1975)

L. C. Kuitert, Gainesville, Florida
(Southeastern, 1974)

W. E. Waters, Moraga, Calif.
(C, 1976)

W. P. Murdoch, College Park, Maryland
(Non-voting)

E. H. Glass, Geneva, New York
(F, 1976)

H. E. Scott, Raleigh, North Carolina
(E, 1974)

A. J. Forgash, New Brunswick, New Jersey
(Eastern, 1976)

BRANCH OFFICERS

Presidents

C. H. Hoffmann, Hyattsville, Maryland (Eastern)
J. T. Schulz, Fargo, North Dakota (North Central)
H. L. McMenemy, Memphis, Tennessee (Southwestern)
W. W. Allen, Berkeley, California (Pacific)
S. B. Hays, Clemson, South Carolina (Southeastern)

Presidents-elect

David Pimentel, Ithaca, New York (Eastern)
Mahlon Fairchild, Columbia, Missouri (North Central)
W. H. Newton, College Station, Texas (Southwestern)
Clark Amen, Corvallis, Oregon (Pacific)
T. D. Canerday, Tifton, Georgia (Southeastern)

Secretary-Treasurers

H. T. Streu, New Brunswick, New Jersey (Eastern)
T. J. Helms, Lincoln, Nebraska (North Central)
J. P. Boyd, Carrollton, Texas (Southwestern)
R. D. Carter, San Leandro, California (Pacific)
J. B. Graves, Baton Rouge, Louisiana (Southeastern)
